1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution?
(maximum 500 words)

Feedback Obtained

Obtaining feedback and using it for improving the processes and performance of any institution is vital to its qualitative progress. It enables the stakeholders to reflect on the functioning of the university, identify weak spots and devise corrective strategies for improved performance. Karnatak University has been obtaining the feedback on its teaching-learning process, infrastructure and policies adopted by it. The feedback is mainly collected from the students who are the major stakeholders of the university. The delivery of the courses and course materials to students assessing their performance honing their technical, soft and life skills and making university's support felt in their progression to higher studies or placements are the aspects of assessment adopted by the University. The feedback from the teachers, alumni, parents and employers is collected as part of the proceedings of the annual Academic and Administrative Audit (AAA) process. In the meetings of Parent-Teachers' Association also parents' feedback is sought. During the AAA, the representatives of alumni, students, research scholars, teaching and non-teaching employees and members of the Syndicate (Governing Body of the University) are invited to interact with the AAA Committee members and vital feedback is received. Based on the discussions, the Committee recommends for suitable changes in the processes and these are communicated to the concerned authorities for suitable actions. The 'Student Feedback on Teachers' is collected by IQAC on a four-point scale (4-Very good 3- Good 2 - Satisfactory 1 - Poor) using a format containing objective type queries in both Kannada and English languages, relating to 10 parameters. These relate to: Knowledge base of the teacher Communication Skills Sincerity/ Commitment of the teacher Interest generated by the teacher Ability to integrate course material with environment/other issues, to provide a broader perspective Ability to integrate content with other courses Accessibility of the teacher in and out of the class Application of ICT in Teaching Ability to design quizzes / Tests / Assignments examinations and projects to evaluate students understanding of the course and Provision of sufficient time for feed back Usually, teachers from other departments are sent to a department to maintain confidentiality and objectivity. Later, a third party was hired to analyze the feedback. The responses were coded and average scoring of each teacher obtained, the average rating being out of 4. The average scores for each along with the overall average are considered to be a teacher's performance ratings. Afterwards, feedback scores of each teacher in a given department are sent to the departments which reviewed in the meeting of the Departmental Council. The shortcomings, if any, are discussed and suitable corrective actions decided - teacher-wise and parameter-wise. In all feedbacks an action taken report is sought from the concerned section heads.

2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

An informal mentoring system is in place in the Karnatak University. After a new batch of students is admitted, the Vice chancellor and other officers of the University, call for a meeting of all the students and brief them about the facilities available for them in the University and modalities to access them. In a way they are oriented towards adapting to the dynamic learning environment and shaping their careers. In the first year, the mentoring is need based and general in nature, in the second year, each teacher is assigned to monitor and guide students in completing the course. Mentors coordinate with the parents and fellow faculty and promote mentees at the time of difficulty / opportunity to help them develop further in their areas of interest. The whole process is co-ordinated by the Chairpersons of various Departments. Mentors also guide and assist the mentees in preparing for competitive examinations as well as for NET/SLET examinations. The mentors, apart from helping the students in advancing their learning, also act as counselors for preparing the students for higher learning and career development. Opportunities to apply for scholarships, freeships, internships, etc., are also shared by the mentors. The mentors act as friends. Philosophers and guides for the students in achieving their set goals and objectives.

5.3.2 – Activity of Student Council & representation of students on academic & administrative bodies/committees of the institution (maximum 500 words)

Students have active representation on academic and administrative bodies and committees of the Institute. The University has established IQAC, Anti Sexual Harassment Cell, Equal Opportunity Cell, Gender Sensitivity Cell and Student Welfare Cell. Each of these has student representation to ensure transparency and reduce favoritism and partiality. Each department has its own student association that partakes in the curricular, co-curricular and extra-curricular activities of the department for the holistic development of the students. The representatives of students and research scholars are consulted while taking decisions relating to student activities and their welfare. Similarly, each hostel also has student association that looks after comfortable and safe stay of the students on the campus. The University organizes its students into a Post Graduate Gymkhana which consists of one representative from each P.G.Department and 2 Ladies Representatives, selected from all the departments. The Gymkhana is responsible for conducting co-curricular and extra-curricular programmes for improving the leadership skills of the students. Its representatives, usually the General Secretary, is represented in many University bodies like the Anti-sexual Harassment Committee, Anti-ragging Committee, Student Welfare Board, Cultural and Sports Committees, and others. Many activities that enhance communication, management, leadership, team-work, time-management and resource management skills as well as those that build confidence in each student are conducted under the aegis of the P.G.Gymkhana.

5.4 – Alumni Engagement

5.4.1 – Whether the institution has registered Alumni Association?

Yes

Alumni Association of Karnatak University (AAKU) was formed and registered on 27-11-2007. Since then, it is engaged in various activities to bring the alumni together and make them to contribute towards holistic development of the university. Apart from organizing Annual Special Lecture Series, 'Smt. Sankappanavar Memorial Scholarship 'of Rs.10,000 is awarded to one meritorious but poor student studying Mathematics, every year. An Annual gathering of the AAKU called as the 'Milan' is organized for sensitizing the alumni and discuss about future plans. The Association has plans to expand the membership and create an Endowment for similar other activities to help the students as well as alumni of the University.

CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

The Karnatak University has a tradition of decentralization of authority and delegation of power for involving everyone in university management and ensuring smooth administration. 1. A policy of 'Delegation of Administrative

Powers' was put in place in 2009 itself. As per the provisions, each section head, Chairman of the Department, Director/Co-ordinators of PG Centres/cells are allowed autonomy to take certain decisions and spend up to a specified amount, without seeking the permission of higher authorities. Liberal and teacher-friendly Research and Development Guidelines have been framed that enable the researcher to enjoy a reasonable degree of autonomy in conducting the research project - procuring equipment, hiring personnel, conducting field work, etc. as well as for optimum utilization of the latent potential of all the for delegating authority and providing operational autonomy to all the various functionaries to work towards decentralized governance system. 2. The Big Purchase Committee of the University has representation from all stakeholders. It involves processing the requests for procurement of items beyond Rs.1.00 lakhs. It enables the departments, teachers and members of the Syndicate to decide about the genuineness of the request and ensure that every genuine need is met. The Planning, Monitoring and Evaluation Board (PMEB) College Development Council IQAC Library Advisory Board Estates Committee Advisory Committees for the USIC, Equal Opportunity Cell, Student Welfare Board, and other cells have representation from teachers, non-teaching employees, members of the Syndicate/Academic Councils, which ensures participative decision making. For all policy making, consultations with Chairpersons of departments, Deans, representatives of teaching and non-teaching employees associations, student associations, and noted alumni are held through formal and informal meetings. This way participative governance is widened and deepened.

6.1.2 – Does the institution have a Management Information System (MIS)?

No

6.2 – Strategy Development and Deployment

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Strategy Type	Details
Curriculum Development	Teachers are empowered to change the curriculum as and when required. The proposals are discussed in the respective Boards of Studies (BOS), Faculty meetings and the Academic Council. The BOS looks into the relevance of the proposed changes and their employability prospects. Employability enhancement skills are included in the curriculum focusing on the employability of the course. Teachers are permitted to participate in academic interactions at national and international fora, which equips them with the needed inputs. The Academic and Administrative Audit (AAA) Committee also recommends changes in curricula, which are positively considered.
Teaching and Learning	With retirements and restrictions on recruitments, the University appoints guest faculty for teaching along with the regular faculty. The guest faculty are trained and guided by the senior faculty at various stages. The teachers

are deputed to attend orientation, refresher, faculty development and similar programmes that helps them to learn new pedagogical skills and practice them in their subjects. The CBCS and continuous internal assessment of the students have helped the students to learn multidisciplinary courses in a better way. There are adequate library, laboratory and skill development facilities that help the students to learn.

Examination and Evaluation

The question papers are set by the Board of Examiners consisting of senior teachers. Examinations are conducted in a fair manner without giving chance for malpractices. A custodian and an internal senior supervisor make all the arrangements. After the examinations, the answer scripts are sent to a 'central valuation' office where they are coded and a double valuation is adopted. The students are given the option for challenging the valuation or obtaining the photocopy of their answer script. Any grievance is redressed in a time bound manner and utmost confidentiality is maintained all examination-related processes.

Research and Development

The University has teacher friendly guidelines for operation of research projects, which has encouraged teachers to obtain externally funded research projects. The University provides fellowships and residence on concessional basis to the research scholars. The publication and application for patents are also supported by the University. This has helped the University to get UPE and CPEPA grants, among others. Training programmes to research scholars and younger teachers are organized in research methodology as well as in preparation of research proposals. University also provides financial support and also honors acclaimed researchers through awards and recognitions.

Library, ICT and Physical Infrastructure / Instrumentation

The Central Library has more than 8.5 Lakh volumes. It is a member of the UGC-INFONET consortium and has subscribed to many electronic journals and data bases. It has a 24X7 reading room, apart from browsing and photocopy facilities. Many departments have independent libraries too. A robust and

sophisticated instrumentation centre and many laboratories cater to the needs of researchers in sciences. University has all basic amenities like ICT gadget equipped class rooms, internet and Wi-Fi connectivity, recreation halls, play grounds, gymnasium, auditoria, wash room and rest room facilities, furnished hostel facilities and transport facilities are available and reasonably maintained.

Human Resource Management

The University follows well-established rules and regulations for recruitment, training, placement and promotion of both teaching and non-teaching staff. The University also collects regular appraisal reports and ensures proper functioning of the staff. The University also arranges for regular training of the non-teaching staff and deputes the teaching staff for refresher, orientation and faculty development programmes helping them to improve their performance. Apart from extending all the benefits and privileges due to an employee, the University also incentivizes good performers. Social gatherings and competitions for employees are arranged by the University.

Industry Interaction / Collaboration

The University-Industry Centre interfaces the staff and students to the industries and provides the much-needed exposure to both the parties. Placement, training and funding opportunities are explored by the centre for benefit of students, staff as well as the industries. Industry experts are invited to give talks and share their expertise. Many MoUs with premier institutions and national level laboratories are entered into for sharing expertise and accessing their services. This has enhanced the research capability of the University.

Admission of Students

Admission is based on entrance test and marks in the qualifying examination. The government regulations on reservation are strictly followed. Counselling system of admission is adopted and the University has plans to move towards online counselling for admission. Specified percentage of seats are reserved for other university and other state students to enhance the diversity of the students. Depending upon the applications, permission is

also given to admit extra seats to few programmes.

6.2.2 – Implementation of e-governance in areas of operations:

E-governance area	Details
Finance and Accounts	Online fee payment HRMS for disbursement of salary. All the financial transactions are made through online-process (the payments and receipts).
Student Admission and Support	Online submission of application, online payment of fees. Students pay all types of fees through online.
Examination	Online application and electronic results announcement. Result processing is computerized and results are available online.
Planning and Development	Internet Connectivity extended to all departments and officers, Wi-Fi connectivity also given. Partial e-governance is adopted. Files are electronically prepared. All the department and administrative sections Internet (Campus Networking). All procurement and civil works are published in e-procurement portal. Government E-marketing (GEM) is also being used for procurement.
Administration	Online application receipt, notices, circulars sent online. Notices and other official correspondence are sent through emails to all the employees and the same is published in the University website. Online Affiliation process.

Karnatak university has five autonomous colleges and 250 affiliated colleges. The autonomous colleges are extended all the privileges and benefits that are extended to the post-graduate departments. The principals of these colleges decide the academic calendar, budget and other co-curricular and extra-curricular activities. The affiliated colleges function in free atmosphere, once they get the affiliation status. Except for the curriculum and examination, the colleges are free to decide their own time table and calendar of events. They are also free to decide about the fee structure and other co-

curricular and extra-curricular activities. The College Development Council (CDC) is in charge of managing the colleges, which guides the colleges in their academic and administrative growth. Any funding opportunity is brought to the notice of the colleges and the University, through the CDC guarantees the funding agency about the correct utilization of the grants received. The colleges prepare their own budget, decide about the execution of the plans and the budget and assess the outcome of the expenditure. They only adhere to the broad timeline indicated by the University.

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

The University has adopted distinct mechanisms to deliver courses as well as conduct administration. In the process, many distinct and unique practices are evolved that have enhanced the quality of learning and governance in the University. Two of such practices are described here below: 1. Maintaining the social relevance of the educational, learning and administrative processes: The University has established a number of chairs named after great personalities and epoch-making thinkers, viz., Gandhian Studies, Dr.B.R.Ambedkar Studies, Basaveshwara Studies, Kanakadasa Studies, Vemana Studies, Swami Vivekananda Studies, Babu Jagjivan Ram Studies, and others. These chairs impart the values enunciated by these thinkers to the students in the form of add-on Diploma and Certificate Programmes. Observance of birth anniversary of these personalities

offers scope for spreading their ideas and encouraging the students to inculcate values represented by these people. These Study Centres are also involved in extension and publication activities to preserve the ethos of these personalities. The University has also created many Cells and Units to cater to the special needs of disadvantaged sections. The SC/ST Cell, the Minorities and Other Backward Classes Cell, Women's Study Centre, International Students Cell, and others. All these enable the students of these sections to access the benefits due to them and this makes the overall governance and administration process more inclusive. 2. Roots in Indian traditions but branching out in emerging high-tech areas (Yoga, performing and visual arts to laser technology and Polymers): The University offers varied programmes that range from Yoga and Performing Arts that celebrate our tradition to such emerging areas like the computers, laser technology and polymers. Thus, it ensures the campus has students studying Indian tradition as well as subjects belonging to the emerging areas and belonging to cutting-edge technology. 3. Village Adoption: Although this is not unique, what makes Karnatak University's practice special is that the fees of students coming from the adopted villages to higher learning is completely waived. The other activities like the planning for socio-economic development of the village, creating awareness about government schemes and programmes, improving delivery of social services, need-based training, are carried out in the adopted villages.

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

The vision of the University is to strive towards excellence in teaching - learning with relevant curriculum and innovative research, promoting good governance and inclusiveness by providing leadership for a knowledge society. In tune with this vision, the University's mission include: 1. Designing and teaching curriculum that is contemporary, competitive and content-rich to make students creative, knowledgeable and entrepreneurial. • To this end, new courses are introduced and curriculum is revised as and when the teacher feels so. Hence, the most recent and relevant curriculum is taught to the student. 2. To encourage faculty to engage in relevant and globally competitive inter/multidisciplinary research, consultancy and extension work. • The research output of the teachers has been impactful (as seen through the h-index) and premier institutions like AICTE have shortlisted Karnatak University for sanction grants to set up advanced scientific instrumentation facility. The UGC has granted financial assistance for multidisciplinary research activities like SAP, DSA, CAS, and CPEPA. The research calibre of the teachers of the Karnatak University has earned the coveted 'University with Potential for Excellence' status. 3. To provide infrastructure resources to facilitate access, equity and harmony both for students and faculty. • Digitally enabled class rooms a huge library with a 24X7 reading hall a skill development centre a career guidance centre a health centre with a resident medical officer and an ambulance Hostels with reasonably comfortable amenities sports, physical education and gym ramps and Braille enabled learning tools for specially-abled students central computing facility and scientific laboratories have been created for the use of students and faculty 4. To create the best possible academic ambience for achieving advancement of students and faculty to be leaders in their endeavours. • The h-index of the teachers is among the highest in the state a large number of students too have passed national level

eligibility tests and have been placed in higher level jobs. 5. To make administration efficient, transparent and adaptable to e-governance. • Adoption of e-governance has progressed, making the administration more transparent, fast and sensitive to the needs of people.

8.Future Plans of Actions for Next Academic Year

Realizing the goals and targets set under the UPE programme • Introducing newskill-oriented and value-added courses for enhancing the employability and lifeskills of the graduates. It is also proposed to increase the employability contentof the existing UG and PG programmes by encouraging internships and apprenticeshipavenues for the students. • Adopting e-governance for speedier and more transparentadministration • Forging collaborations and entering into MoUs for resource sharingand mobilization of funds • Improving the bibliometrics of the faculty by insistingon publications in indexed journals • Creating facilities to attract foreign andsponsored students for select programmes • Improving the contribution of theUniversity in local development • Developing the campus in an environment friendlyand sustainable manner
