REGULATIONS For MASTER OF ARTS IN PSYCHOLOGY

CHOICE BASED CREDIT SYSTEM (CBCS)

From

2015-16 Onwards

KARNATAK UNIVERSITY, DHARWAD

Regulations concerning Master Degree Programme

Faculty of Social Sciences

Master Degree Programme in Psychology

Regulations Governing the Post-Graduate Master Degree Programmes under Choice Based Credit System (KU-CBCS), framed under Section 44(1)(C) of K.S.U. Act, 2000

MASTER OF ARTS IN PSYCHOLOGY CHOICE BASED CREDIT SYSTEM (CBCS)

Title:

These Regulations shall be called "Karnatak University Regulations Governing Post-Graduate under the Choice Based Credit System" for Master Degree programmes.

Commencement:

These Regulations shall come into force from the academic year 2015-2016.

Definitions:

In these Regulations, unless otherwise mentioned:

a) "University" means Karnatak University:

b) "Post-Graduate Programmes" means Master's Degree Courses.

c) "Compulsory Course" means a fundamental paper which a student admitted to a particular Post-Graduate programme should successfully complete to receive the Post-Graduate Degree in the concerned subject.

d) "Specialization Paper" means an advanced paper due to departmental choice for students wanting to receive Degree in the specialization area:

e) "Open elective" means a course offered by Department for students of other Departments in the same Faculty. Students have freedom to choose from a number of optional courses offered by other Department/s to add to their credits required for the completion of their respective programmes: however, if in a P.G. Centre there is only one Department for the time being, the students of that Department should study that open elective course.

f) "Credit" means the unit by which the course work is measured. For this Regulation, one Credit means on hour of teaching work or two hours of practical work per week. Normally a Semester is of 16 weeks duration in any given academic year. As regards the marks for the courses, 1 credit is equal to 25 marks, 2 credits is equal to 50 marks, 3 credits is equal to 75 marks and 4 credits is equal to 100 marks as used in conventional system.

g) "Grade" is an index to indicate the performance of a student in the selected course. These Grades are arrived at by converting marks scored in each subject by the candidate after

completing his/her Internal Assessment and Semester end Examinations. Each course carries a prescribed number of the marks of credits. These grades are awarded for each subject after conversion of the marks and after completion of the examinations in each semester.

h) "Grade Point Average" of GPA refers to an indication of the performance of the student in a given semester. GPA is the weighted average of all Grades a student gets in a given semester. The GPA depends on the number of courses student takes and the grades awarded to him/her for each of the subjects so chosen.

i) "Cumulative Grade Point Average" or CGPA refers to the cumulative Grade Point Averages weighted across all the semesters and is carried forward. The calculations of the GPA, CGPA is shown at the end of this regulation.

Minimum Eligibility for Admission:

The students who have successfully completed the three year/four-year Psychology Degree course of this University or of any other University recognized as equivalent there to by this University shall be eligible for admission to the Post Graduate Programmes under the KU-CBCS Programme provided they also satisfy the eligibility conditions like percentage of marks etc., as may be prescribed by the University and as per Ordinance of the course.

Entrance Test

Candidate seeking admission to the course shall be required to appear for entrance test conducted by the University, for the 1st Semester.

Selection for Admission

The selection of students shall be made on merit in each category of reservations as per the University rules for 1st Semester.

Intake

The total number of candidates to be admitted to the course would be 35 only for the 1st semester. Two seats are allocated to other University candidates of which one for other University within the state and one for Outside state. Eight seats are under enhanced fee. Total Seats is 35

Course of Study:

The courses of study M.A in PSYCHOLOGY degree shall comprise of Theory and Practicals as noted in the syllabus.

Duration of the Programme:

The programme of study for the Post-Graduate Master Degree shall normally extend over a period of two academic years, each academic year comprising of two semesters, and each semester comprising of sixteen weeks of class work.

Medium of Instruction

The medium of instruction and examination is English.

Minimum Credits and Maximum Credits:

a) There shall be three categories of courses viz., Compulsory course, Specialization Course and Open Elective Course. Compulsory and Specialization Course should be from the concerned

department only. The Open Elective are the courses offered by other Departments in the same Faculty.

b) Each course shall have a definite course objective, Eligibility criterion for taking the course, scheme of Evaluation including the components of Internal Assessment (IA) marks, Projects (if any), the number of contact hours, type of practical and the prescribed credits.

c) The credits for each of compulsory course may vary from 3 to 4 credits; for specialization course it may vary from 1 to 4. In case of Open Elective Course, it shall be 1 to 3 credits for each paper.

d) A student shall register for minimum of 18 credits and a maximum of 30 credits per semester. However, to qualify for the degree in any Department under any school and faculty, he/she should have registered and cleared a minimum number of credits, which vary from course to course.

Course Structure:

a) The students of Post-Graduate Programme shall study the courses as may be approved and prescribed by the Academic Council of the University from time to time.

b) A typical Master Degree program consists of a number of courses. This number varies from discipline to discipline. The term course is used to indicate a logical part of a subject matter of the programme (also referred to as paper). In essence the courses are of three types:

i. Compulsory Course

ii. Specialization Course or Optional Course and

iii. Open Elective Course.

c) Each programme shall have a set of compulsory course that a student must complete to get the degree in the concerned Department. These are distributed in each semester. There could be a minimum of such papers for each semester depending on the department.

d) The students shall also choose a minimum number of specializations Course offered within the department. Each department will offer at least one specialization paper in the third and fourth semester. The Department, BOS and the Faculty may also have spell out the number of such specialization courses a student will have to take for the specialization. The Department offering of specialization course shall provide the flexibility in the system so that the student can opt for a variety of programmes depending upon their interest.

e) Each department shall offer at least two Open Elective courses for the II and III Semester for students from other department. Student from the same department are generally not allowed to opt the courses offered as Open Elective course in the same department.

f) Each course (paper) in this system is designed carefully to include lectures / tutorial/ Laboratory work/ seminars/ Project work/ practical training/ report writing/ Viva-voce etc., to meet effective teaching and learning needs and the credits are assigned suitably.

g) Master Degree Programmes are essentially semester system Programmes. There shall be 4 semesters in each Programme. There shall be two semesters for each year of the Programme. Each of the Semester will be of 16 weeks duration including evaluation and grade finalization period. The academic session in each semester will provide 90 teaching days with 48 hrs of teaching / learning periods in six days session per week.

h) The normal calendar for the semester would be as follows:

i. I and III semester - August to November

ii. II and IV Semester - January to April

Attendance

a. Each paper shall be taken as a unit for the purpose of calculating the attendance.

b. Each student will have to sign and mark his attendance for every hour of teaching of each paper. At the end of every month all teachers shall notify the attendance of every student on the Notice Board of the department during 2nd week of every month. Chairman shall certify the fulfilment of required attendance of every candidate in the Examination form.

c. Certain proportion of the marks in Internal Assessment shall be awarded based on attendance as an incentive to the student for regularity in attendance.

d. A student shall be considered to have satisfied the requirement of attendance for each paper, if he/she has to attend not less-than 75% of the number of classes held up to the end of the semester including tests, seminars, group discussions, practical, tutorials, etc.

e. However, if a student represents his/her institution, University, State or Nation in sports, NCC, NSS of Cultural of any other officially sponsored activities, he/she shall be eligible to claim the attendance for the actual number of days participated subject to a maximum of 20 days in a semester based on the specific recommendation of the head of the Department.

Internship

The students need to undergo Internship (which is compulsory) for one month after the completion of third semester M A IN PSYCHOLOGY.

Evaluation

- a) Evaluation of the papers will have two components
 - i) Internal Assessment, and

ii) Semester End examination

Total marks for the Internal Assessment are 25. In addition to 3 marks for attendance as shown in the table above (VIII C), the internal assessment shall consist of Two components-

i.	Two written Tests of 8 marks each	: 16 marks
ii.	Seminar (Presentation)	: 6 marks
	Two written tests of 11 marks each	: 22 Marks

b) For C.B.C.S students

The tests shall be written in separate designated answer booklet. The Departmental Council has decided that the course teacher has to conduct written test and seminars. The marks of all the components shall be notified on the notice board of the Department and submitted to the Registrar (Evaluation) at the end of every semester. The Internal Assessment marks shall be taken into account for compilation of grades. In case of candidates appearing for improvement examination the marks obtained in the Internal Assessment shall not be revised since there is no provision for improvement of Internal Assessment.

c) There shall be one Semester-End examination of 3 hours duration for every paper for 75 marks. The examination shall be conducted as per the rules, regulations, notifications, orders, instructions, procedures, formats and circulars issued by the University from time to time.

Completion of the Course

- a) A candidate is expected to successfully complete the Degree programme within two years from the date of admission.
- **b)** Whenever the syllabus is revised, the candidate reappearing will have to write the examination as per the syllabi prevailing at that time.
- c) The CBCS scheme is a fully carry-over system. However, the four-semesters (two years course) should be completed by the student within a maximum period of 4 years.

Declaration of Results:

A. Minimum for a pass in each paper shall be 40% of the total 100 marks including both the IA and the semester end examinations. However, candidate should obtain at least 40% of the marks in the Semester End Examination. There is no minimum in the IA marks. However, after adding the IA and the semester end examination, the candidates should score a minimum of 40 % of the maximum marks for the subject.

B. The candidates, seeking improvement of their results shall submit a representation along with a permissible fee to the Registrar (Evaluation) and surrender the degree certificate/ provisional pass certificate /original marks card of that semester within 15 days of announcement of result.

Percentage of Marks	GPA/CGPA	Grade Letter	Class Awarded
75 and above	7.50 to 10.00	А	First class with Distinction
60 and above but less than 75	6.00 to 07.49	В	First Class
50 and above but less than 60	5.00 to 05.99	С	Second Class
40 and above but less than 50	4.00 to 4.99	D	Third Class
Less than 40	Less than 4.00	F	Pass

Marks and Grade Points The grading of successful candidate/s at the examination shall be as follows:

KARNATAK UNIVERSITY, DHARWAD

SYLLABUS For

MASTER OF ARTS IN PSYCHOLOGY

CHOICE BASED CREDIT SYSTEM

(MA IN PSYCHOLOGY-CBCS)

	MA in Psychology Program Outcomes
PO-1	The students will understand and apply various research inquiry skills of professional
	psychology.
PO-2	Empowers the students to involve in scientific research process and gain the skills
	necessary to conduct and disseminate original research.
PO-3	The students will gain knowledge and competence in counseling, clinical and
	industrial setup.
PO-4	The students will demonstrate the skills of professional identity as counseling
	psychologist, clinical psychologist, Industrial Psychologist.
PO-5	The students will demonstrate the knowledge of Psychological theories, research for
	the applipment of the society.

Paper Code and Name	PG51T101: BIO PSYCHOLOGY				
	COURSE OUTCOMES				
CO-1	Having basic knowledge about the structure of human brain and its functions				
	and impact of human behavior.				
CO-2	Understanding biological mechanism in mental proces	s such as learning,			
	memory, and thinking.				
CO-3	Providing an applied prospective with regard to va	arious neurological			
	disorders.	_			
CO-4	Gaining thorough knowledge with regard to genetic	c mechanisms and			
	evolutionary aspects of behavior.				
CO-5	Becoming aware of adverse effects of psychotropic	c medications and			
	practicing ethical issues in psychopharmacology.				
	PARTICULARS	Teaching Hours			
		(Max. 48)			
	Unit:1 Brain Behaviour Dynamics				
	ature and Scope, Methods of studying in brain- Ablation, Recording and				
	s, Neurochemical methods.	10 hrs			
•	Structure and functions, Divisions – Central and Peripheral NS.				
	functions – intelligence, memory, learning, ns and effects of endocrine glands				
Endocrine system – runctio	Unit : 2 Neuro psychology				
Neurone Structu	ure, types and functions of neuron, Neuronal conduction-				
	etween neurons, synaptic conduction	10.1			
	- categories and functions	10 hrs			
	orders- Tumours, Seizures Parkinson's disease, Huntington's				
-	r's disease, Multiple Sclerosis				
	Unit : 3 Behaviour Genetics				
Behaviour Geneti					
• Methods of study	10 hrs				
Chromosomal fun					
Hereditary determ	inations of behaviour				

Genetic engineering	
Unit : 4 Evolutionary Perspectives	
Principles of Evolution – human behaviour – Reflexes, Instincts	
• Environmental influences on behaviour- human and non-human species.	08 hrs
Current researches in evolutionary bio-psychology	
Controversial issues in evolutionary bio-psychology	
Unit : 5 Psycho Pharmacology	
Basic Principles of psychopharmacology	
• Classification of Psychotropic Medications – Antipsychotics, Antidepressants, Anxiolytics	
and sedatives, Mood stabilizers, Stimulants, Sedatives/ Hypnotics, Miscellaneous drugs.	10 hrs
• Adverse Effects of Psychotropic Medications- Drug-drug interactions, Side effects,	
Orthostatic, Hypotension, Sexual dysfunction and hyper prolactinemia, Liver/Kidney	
dysfunction.	
Ethical issues in Psycho- pharmacology.

Paper Code and Name	PG51T202: PSYCHOLOGICAL STATISTICS		
	COURSE OUTCOMES		
CO-1	Students will be able to analyze the research data with appropriate statistical techniques familiarized with SPSS	and also getting	
CO-2	Developing skills to use quantitative techniques to analyze the data.		
CO-3	Grasping concepts related to hypothesis testing and developing related computational skills		
CO-4	Learning basic techniques of descriptive and inferential statistics (paran non-parametric).	metric and	
CO-5	Learning to use the SPSS package for data analysis		
	PARTICULARS	Teaching Hours (Max. 48)	
	Unit: 1 Introduction		
	- The definitions and purpose of statistics, Collection and Tabulation of data. Frequency distribution, Preparation of frequency tables, Graphical representation.		
	Unit: 2 Measures of Central Tendency and Variability		
	an, mode and median; when to use various measures of central tendency; Measures of ty: Range, Quartile deviation, Mean deviation, Standard deviation, variance	10 hrs	
	Unit: 3 Test of Significance		
	ance of mean and SD; difference between means and Standard Error of Mean, 't' test ; of variance (ANOVA): one-way and two-way.	8 hrs	
	Unit: 4 Correlation and Regression	8 hrs	
- Pro	oduct moment correlation and Rank order correlation; Simple and multiple regression.	0 113	
	Unit: 5 Non-Parametric Statistics	8 hrs	
- Chi-squ	- Chi-square and its various applications; Brief information on different non-parametric tests; Test for normality		
	Unit: 6 Factor analysis	6 hrs	
	- Factor loading, Factor extraction and Factor rotation; Computer applications: Use of statistical packages in data analysis

Paper Code and Name	PG51T303A : BASIC COUNSELING SKILLS	
	COURSE OUTCOMES	
CO-1	Student will be able to develop the micro skills essential for a Counsellor and	adapt these
	skills in counseling.	
CO-2	Students will imbibe the Challenging skills to assist the clients to confront their	issues
CO-3	Students will be able incorporate Reflecting skills in Counseling sessions	
CO-4	Students will learn to utilize Assessments tools in Counseling	
CO-5	Students will learn the skill of Goal Setting for their Clients	
	PARTICULARS	Teaching Hours (Max. 48)
	Unit: 1 Assessment and the Initial Interview:	
	Beginning Assessment methods: The mental status examination, Observation, ns, conducting an initial interview using a brief intake form. Exercises,	8 hrs
,	Unit: 2 The Counseling Process:	
The First Session; the opening the Counseling process:. The Middle Sessions: Structure and Focus, Continuing the counseling relationship, moving through the counseling process. Ending the counseling process, the termination process: Follow-up Invitational Skills: Nonverbal communication between counselor and client: Eye contact, body position, attentive listening, voice tone, facial expressions and gestures, physical distance, touching and warmth. Opening skills: how to invite, Encouragers, questions. Goal setting skills: Set Goals, Characteristics of Constructive Goals, the technique of focusing on the client, the technique of boiling down the problem Exercises, Homework, Journal starters.		(12 Hours)
	Unit: 3 Reflecting Skills: Paraphrasing:	
Reflecting contents and thoughts, reflecting feelings and reflecting meaning, reasons for reflecting, The skill of Paraphrasing: Reflecting contents and thoughts: How to paraphrase, when to paraphrase, the concept of depth. Common problems in Paraphrasing: Simply reciting the facts, difficulty hearing the story because of "noise", worrying about what to say next, being judgmental and taking client's side, being judgmental of the client. : Reflecting Feelings. The importance of understanding emotions, the skill of reflecting feelings, how to reflect feelings, Common problems in reflecting. Exercises, Homework, Journal starters		(12 hours)
	Unit: 4 Reflecting Skills:	
Unit: 4 Reflecting Skills: Reflecting Meaning and Summarizing: Meaning, Uncovering the next layer, How to identify Meaning issues with clients. The Nonjudgmental listening cycle. Challenging Skills: When should we use the challenging skills, Giving feedback, How to give feedback, Confrontation, How to confront, Evaluating Confrontation and Client response.		(10 hours)

Exercises, Homework, Journal starters

Unit: 5 Outcome Evaluation and Termination Skills

Evaluating the effectiveness of Counseling, Basic outcome evaluation methods, Termination, How (6 hours) to Maintain therapeutic Gains and prevent relapse following termination. - Exercises, Homework, Journal starters

Paper Code	PG51T303D :INDUSTRIAL PSYCHOLOGY	
and Name		
	COURSE OUTCOMES	
CO-1	The students will be able to apply basic psychological principles in 32 Cour	nseling the
	stakeholders of industries.	
CO-2	The students will come to know the application of psychology in Industry.	
CO-3	The students will come to know Historical development of Industrial Psychology.	
CO-4	The students will come to know the man power planning in industry.	
CO-5	The students will come to know the performance appraisal in Industry.	
	ARTICULARS	Teaching Hours
		(Max. 48)
	Unit: 1 Historical Development :	
Planning,	- Social Economic and Psychological foundations of Industrial Psychology; Man Power Planning, Individual Differences, Basic selection model, Correlation, Regression; Statistical Significance; Characteristics of predictors, determining the utility of a selection instruments	
	Unit: 2 Jobs and their requirement:	
- Terminology; Job determinants; uses of Job information; Job Analysis, Methods of Job		10 hrs
Analysis,	Structured job analysis questionnaire, Job Dimension, Job requirements	
	Unit: 3 Selection and Placement:	
- Problems of selection, application blank, Biographical Data, Selection by means of interview and psychological tests; Procedure for placement		10 hrs

Unit: 4 Human abilities :	
- Personality and Interest: The nature of basic human abilities; Mental abilities; Mechanical	8 hrs
ability, Psychomotor abilities, Visual skills, Job specific abilities	
Unit: 5 Performance Appraisal :	
- The nature and meaning of performance appraisal, purpose of performance appraisal,	10 hrs
Traditional methods of performance appraisal, Modern methods of performance appraisal,	10 113
Psychological problems related to 33ates and rater

REGULATIONS For P G DIPLOMA IN COUNSELLING & PSYCHOTHERAPY

CHOICE BASED CREDIT SYSTEM (CBCS)

From

2015-16 Onwards

Regulations concerning P.G Diploma in Counselling & Psychotherapy

Faculty of Social Sciences

Post Graduation Diploma Program in Counselling & Psychotherapy

Regulations Governing the Post-Graduate Diploma Programs under Choice Based Credit System (KU-CBCS), framed under Section 44(1)(C) of K.S.U. Act, 2000

P.G DIPLOMA IN COUNSELLING & PSYCHOTHERAPY CHOICE BASED CREDIT SYSTEM (CBCS)

Title:

These Regulations shall be called "Karnatak University Regulations Governing Post-Graduate under the Choice Based Credit System" for P.G Diploma programs.

Commencement:

These Regulations shall come into force from the academic year 2015-2016.

Definitions:

In these Regulations, unless otherwise mentioned:

a) "University" means Karnatak University:

b) "Post-Graduate Diploma Programmes" means Counselling and Psychotherapy Courses.

c) "Compulsory Course" means a fundamental paper which a student admitted to a particular Post-Graduate programme should successfully complete to receive the Post-Graduate Diploma in the concerned subject.

d) "Specialization Paper" means an advanced paper due to departmental choice for students wanting to receive Diploma in the specialization area:

e) "Credit" means the unit by which the course work is measured. For this Regulation, one Credit means on hour of teaching work or two hours of practical work per week. Normally a Semester is of 16 weeks duration in any given academic year. As regards the marks for the courses, 1 credit is equal to 25 marks, 2 credits is equal to 50 marks, 3 credits is equal to 75 marks and 4 credits is equal to 100 marks as used in conventional system.

f) "Grade" is an index to indicate the performance of a student in the selected course. These Grades are arrived at by converting marks scored in each subject by the candidate after completing his/her Internal Assessment and Semester end Examinations. Each course carries a prescribed number of the marks of credits. These grades are awarded for each subject after conversion of the marks and after completion of the examinations in each semester.

g) "Grade Point Average" of GPA refers to an indication of the performance of the student in a given semester. GPA is the weighted average of all Grades a student gets in a given semester. The GPA depends on the number of courses student takes and the grades awarded to him/her for each of the subjects so chosen.

i) "Cumulative Grade Point Average" or CGPA refers to the cumulative Grade Point Averages weighted across all the semesters and is carried forward. The calculations of the GPA, CGPA is shown at the end of this regulation.

Eligibility for Admission :

- a) The Eligibility for admission for the course mentioned above requires a post-graduate with M.A. /M.Sc in Psychology with any specialization securing 50% of marks (45% for SC/ST, Cat-I and Physically challenged) are eligible.
- b) Medium of Examination : English is the medium of instruction. However, the students who are willing to write exam in Kannada would also be permitted other than English.
- c) Intake of the course : Total intake of students for the course would be 30. The admission for the course would be made by the Karnatak University, Dharwad following the reservation system and the guidelines issued by the University from time to time.

Selection for Admission

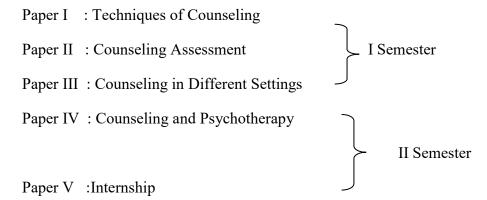

The selection of students shall be made on merit in each category of reservations as per the University rules for 1st Semester.

Intake

The total number of candidates to be admitted to the course would be 20 only for the 1st semester. Two seats are allocated to other University candidates of which one for other University within the state and one for Outside state. Five seats are under enhanced fee. Total Seats is 20.

Course of study:

Each students shall study subjects mentioned below compulsorily and also submit a dissertation of minimum of five case reports after visiting the concerned clinics/hospitals/NGO's/Organizations etc., in the second semester.

Duration of the Programme:

The programme of study for the Post-Graduate Diploma shall normally extend over a period of one academic years, comprising of two semesters, and each semester comprising of sixteen weeks of class work.

Medium of Instruction

The medium of instruction and examination is English.

Minimum Credits and Maximum Credits:

a) There shall be one categories of courses viz., Compulsory course. Compulsory Course should be from the concerned department only.

b) Each course shall have a definite course objective, Eligibility criterion for taking the course, scheme of Evaluation including the components of Internal Assessment (IA) marks, Projects (if any), the number of contact hours, type of practical and the prescribed credits.

c) The credits for each of compulsory course may vary from 3 to 4 credits.

d) A student shall register for minimum of 18 credits and a maximum of 30 credits per semester. However, to qualify for the degree in any Department under any school and faculty, he/she should have registered and cleared a minimum number of credits, which vary from course to course.

Course Structure:

a) The students of Post-Graduate Diploma Programme shall study the courses as may be approved and prescribed by the Academic Council of the University from time to time.

b) Each course (paper) in this system is designed carefully to include lectures / tutorial/ Laboratory work/ seminars/ Project work/ practical training/ report writing/ Viva-voce etc., to meet effective teaching and learning needs and the credits are assigned suitably.

c) PG Diploma Programmes are essentially semester system Programmes. There shall be 2 semesters in each Programme. There shall be two semesters for each year of the Programme. Each of the Semester will be of 16 weeks duration including evaluation and grade finalization period. The academic session in each semester will provide 90 teaching days with 48 hrs of teaching / learning periods in six days session per week.

d) The normal calendar for the semester would be as follows:

i. I semester - December to April

ii. II Semester – May to August

Attendance

a. Each paper shall be taken as a unit for the purpose of calculating the attendance.

b. Each student will have to sign and mark his attendance for every hour of teaching of each paper. At the end of every month all teachers shall notify the attendance of every student on the Notice Board of the department during 2nd week of every month. Chairman shall certify the fulfilment of required attendance of every candidate in the Examination form.

c. Certain proportion of the marks in Internal Assessment shall be awarded based on attendance as an incentive to the student for regularity in attendance.

d. A student shall be considered to have satisfied the requirement of attendance for each paper, if he/she has to attend not less-than 75% of the number of classes held up to the end of the semester including tests, seminars, group discussions, practical, tutorials, etc.

e. However, if a student represents his/her institution, University, State or Nation in sports, NCC, NSS of Cultural of any other officially sponsored activities, he/she shall be eligible to claim the attendance for the actual number of days participated subject to a maximum of 20 days in a semester based on the specific recommendation of the head of the Department.

Course Outline for the PG Diploma in Counseling and Psychotherapy

I SEMESTER

Paper No.	Title of the Paper	Marks for Semester end Examination	Internal Assessment Marks	Total Marks	Hours per week	Credits	
COMPULSORY PAPERS							
PGD101	Techniques of Counseling	75	25	100	4	4	
PGD102	Counseling Assessment	75	25	100	4	4	
PGD103	Counseling in Different Settings	75	25	100	4	4	

II Semester

Paper No.	Title of the Paper	Marks for Semester end Examination		Total Marks	Hours per week	Credits
	COMPULSORY PAPERS					
PGD201	Counseling and Psychotherapy	75	25	100	4	4
PGD202	Internship	75	25	100	4	4

Internship

The students need to undergo Internship (which is compulsory) for one month after the completion of second semester P. G DIPLOMA IN COUNSELLING AND PSYCHOTHERAPY.

Scheme of Evaluation :

Question paper on each theory paper will have two parts, Part-A will have 4 questions with a andboptionsfor15markseach.Part-Bwillconsistof6 questions on short notes, out of which the students shall write 4 for 5 marks for each question.

- 1) There shall be a University examination at the end of each semester.
- 2) First semester will have three theory papers and second semester will have one theory paper and dissertation and viva-voce.
- 3) Examination for each theory papers will be for 80 marks with three hours time duration.
- 4) In case of Internal Assessment of the theory papers there shall be two tests for 10 marks each as decided by the members of the Department Council.
- 5) Internal Assessment marks secured by the candidates shall be displayed on the notice board from time to time.
- 6) The statement of Internal Assessment shall be sent to the Registrar (Eva) at least 15 days before the final examination.
- 7) There shall be Viva-voce test conducted by examiners from the department and called from other universities.

Board of examiners/valuation

- 1. There shall be a Board of examiners for scrutinizing and approving the question papers and scheme of valuation.
- 2. About 50% of the examiners appointed for setting of question papers and valuation work in each semester shall be external.
- 3. There shall be double valuation for all theory papers and dissertation work; the average of the marks awarded by the internal and external examiners shall be taken as the final award for that particular paper/dissertation.
- 4. In case of 20% or more deviations in the marks awarded by the internal and the external valuer, the script shall be referred to the third valuer (who shall be an external examiner who has not valued earlier) and the average of the nearest two shall be considered for the award of marks.

Completion of the Course

- **d)** A candidate is expected to successfully complete the Diploma programme within one years from the date of admission.
- e) Whenever the syllabus is revised, the candidate reappearing will have to write the examination as per the syllabi prevailing at that time.
- **f)** The CBCS scheme is a fully carry-over system. However, the two-semesters (one years course) should be completed by the student within a maximum period of 1 years.

Declaration of Results:

C. Minimum for a pass in each paper shall be 40% of the total 100 marks including both the IA and the semester end examinations. However, candidate should obtain at least 40% of the marks in the Semester End Examination. There is no minimum in the IA marks. However, after adding the IA and the semester end examination, the candidates should score a minimum of 40 % of the maximum marks for the subject.

D. The candidates, seeking improvement of their results shall submit a representation along with a permissible fee to the Registrar (Evaluation) and surrender the degree certificate/ provisional pass certificate /original marks card of that semester within 15 days of announcement of result.

Marks and Grade Points

Percentage of Marks	GPA/CGPA	Grade Letter	Class Awarded
75 and above	7.50 to 10.00	А	First class with Distinction
60 and above but less than 75	6.00 to 07.49	В	First Class
50 and above but less than 60	5.00 to 05.99	С	Second Class
40 and above but less than 50	4.00 to 4.99	D	Third Class
Less than 40	Less than 4.00	F	Pass

The grading of successful candidate/s at the examination shall be as follows:

SYLLABUS For

PG DIPLOMA IN COUNSELLING AND PSYCHOTHERAPY

CHOICE BASED CREDIT SYSTEM

(PG DIPLOMA -CBCS)

	PG Diploma in Counselling and Psychotherapy Program Outcomes
PO-1	Enables the students to understand and to apply research and inquiry skills.
PO-2	The students will engage in scientific methods of at looking at psychological problems.
PO-3	Empowers the students with competence practice of counseling psychology.
PO-4	Students will demonstrate the knowledge and application of various counseling techniques.
PO-5	Student will demonstrate the development of professional identity as a counselor

Paper Code and Name	PGD101: Techniques of Counseling
CO-1	Students will learn the difference between Counseling and Psychotherapy
CO-2	Students will learn the skills and strategies to carry out Individual Counseling session
CO-3	Students will learn the skills, and strategies to execute a Group Counseling Session
CO-4	Students will learn the utilization of the various Counseling techniques.
CO-5	Students will learn to incorporate the Ethical Values at workplace

PARTICULARS	Teaching Hours (Max.)
Unit 1: Introduction,	
Meaning and definitions, nature and scope, types of counseling, different	
theoretical approaches to counseling (eg. Psychodynamic, cognitive etc)	
Unit 2: Counseling process.	
Stages of counseling, starting, working, terminating, Recording of process,	
evaluation of counseling outcome, research in process and outcome of counseling.	
Issues in training, Elements of training, values and ethical considerations

Paper Code and Name	PGD102: Counseling Assessment
CO-1	Students will learn about the different Classification of Test
CO-2	Students will learn to employ the Non-testing Methods in their Counseling
CO-3	Students will learn to employ the Testing methods in their Counseling
CO-4	Students will learn to use the appropriate tests on their Clients for Screening and Diagnostic purpose
CO-5	Students will learn to use Diagnostic tests in Children

PARTICULARS	Teaching Hours
	(Max.)
Unit 1: Need for assessment,	
Meaning and nature of psychological tests, classification of tests, principles of test	
construction, and ethical issues in use of tests.	
Unit 2: Non- testing methods:	
Observation, interview, socio-metry, case study, rating scales, behavioural analysis,	
anecdotal and records.	
Unit 3: Testing for cognitive abilities	
Attention, memory and intelligence tests, testing for aptitudes, interests and	
attitudes, types of tests.	
Unit 4: Assessment of personality:	
questionnaires, inventories, rating scales, projective tests, Nature, advantages, usage	
etc.	
Unit 5: Diagnostic tests:	
For children, behavioural problems, retardation, childhood psychological problems,	
depression, anxiety, phobias and other conditions.

Sage Publications: New Delhi.	
3. Assessment for counselors, Bradley T. Erford (2007), Lahaska Press Boston	
: New York.	

Paper Code and Name	PGD103: Counseling in different settings
CO-1	Students will learn the skills to assess problems of children in the school setup
CO-2	Students will learn to handle the Career issues of their prospective Clients who need Career Guidance and Counseling
CO-3	Students will learn the skills to conduct Counseling sessions to Patients in Hospitals
CO-4	Students will be able to deliver their services at Remand homes
CO-5	Students will be able to work at the Rehabilitation Center

PARTICULARS	Teaching Hours (Max.)
Unit 1: Educational counseling,	
Slow learners, fidgeted child, underachievement, delinquency, learning disorders,	
retardation, problems of adjustment to school.	
Unit 2: Career counseling:	
Nature and scope, career decision making, job satisfaction, stress in job,	
adjustmental and other issues, human problems in work place.	
Unit 3: Counseling in hospital setting:	
Need and scope, physical illness, pain, terminal or life threatening illness, pre-	
surgical, post surgical counseling.	
Unit 4: Counseling in legal settings:	
Juvenile courts, remand homes, family courts, custody, divorce etc.	
Unit 5: Counseling in psychiatric setting:	
Need and scope, counseling patients after treatment, rehabilitation, family of	
patients, spouse and children of alcoholics etc

Paper Code and Name	PGD201: Counselling and Psychotherapy
CO-1	Students will learn the different Orientations, Strategies and Skills of
	Counseling and Psychotherapy
CO-2	Students will learn to apply the Strategies and interventions for Needs of the
	Clients
CO-3	Students will learn to employ the Alderian, Existential techniques
CO-4	Students will develop the skills to use Person centred and Gestalt techniques
CO-5	Students will learn to skills to carry out a session using REBT and Integrative
	Approaches

PARTICULARS	Teaching Hours (Max.)
Unit 1: Theories of counseling and psychotherapy:	
Psychoanalytic approach, Jungian analytical theory: Applications, goals of	
counseling and psychotherapy, process of change, traditional intervention	
strategies, brief intervention strategies, clients with serious mental issues.	
Unit 2: Adlerian theory and Existential theory:	
Human nature and developmental perspective, major constructs. Application-	
Goals, process of change, traditional intervention strategies, brief intervention	
strategies, clients with serious mental issues.	
Unit 3: Person-centered theory and Gestalt theory:	
Background, major constructs, human nature and developmental perspective,	
Applications- Goals of counseling and psychotherapy, process of change,	
traditional intervention strategies, Brief intervention strategies, clients with serious	
mental issues.	
Unit 4: Cognitive Behaviour theory and Rational emotive theory:	
Major constructs, human nature and developmental perspectives, application: Goals	
of counseling and psychotherapy, process of change, traditional intervention	
strategies, Brief intervention strategies, clients with serious mental issues.	
Unit 5: Reality theory and Integrative Approaches:	
Major constructs, human nature and developmental perspectives, application: Goals	
of counseling and psychotherapy, process of change, traditional intervention	
strategies, brief intervention strategies, clients with serious mental issues.

REGULATIONS For Doctor of Philosophy

CHOICE BASED CREDIT SYSTEM (CBCS)

From

2015-16 Onwards

	PhD Program Outcomes
PO-1	The students will develop evidence based knowledge of wellbeing science.
PO-2	Students will engage in scientific research activities and gain the skills necessary to
	conduct and publish original research.
PO-3	Students will demonstrate knowledge and competence in analyzing the data
	quantitatively and qualitatively.
PO-4	Students will demonstrate the knowledge and competence in ethical conduct of
	research.
PO-5	Students will learn to integrate the theory and practice of psychological research.

Paper Code and Name	PHD101: Cognitive Psychology
	COURSE OUTCOMES
CO-1	1. The scholar will attain knowledge about Meaning, nature and historical roots
	of cognitive psychology
CO-2	2. The pupil will gain deeper understanding of Anatomy of brain and related
	cognitive functions
CO-3	3. The pupil will be able to understand specific research techniques used in
	cognitive Psychology research and use them in designing their research.
CO-4	4. The scholar will be able to understand the process of cognitive development
	across life span and formulate age appropriate techniques of research.
CO-5	5. The pupil will be able to gain deeper understanding of various cognitive
	processes and compare western and indigenous perspectives of consciousness.

PARTICULARS	Teaching
	Hours
	(Max.)
Unit 1. Introduction to Cognitive Psychology	
Cognitive Psychology Defined, Emergence of Cognitive Psychology	
Research Methods in Cognitive Psychology:	
Goals of Research; Distinctive Research Methods : converging evidence	
for dissociation and Association, Behavioural Methods, Correlational	
Neural Methods, Causal neural Methods, Modeling and Neural-	
Network Models. Neurophysiological Sensing Techniques: MRI, EPI,	
CAT scan, PET scans, FMRI and ERP.	
Unit 2: Cognitive Neuroscience	
Cognition in the Brain: The Anatomy and Mechanisms of the brain; Gross	
Anatomy of the brain: Forebrain, Midbrain, Hindbrain; Cerebral Cortex	
and Localization of Function	
The Structures and Functions of the Brain.	
Unit 3: Cognitive Development.	
Theories of Cognitive development; Neurocognitive development	1
Cognitive development across life span: Information acquisition skills,	
Attention, Perception, Language, Memory, Intelligence and Abilities	

Unit 4: Cognitive processes:			
	Perceptual process: Visual Object recognition Theories, Face		
	Perception, Speech Perception		
	Attention and Consciousness: The Nature of Attention and		
	Consciousness		
	 Attention : Selective attention, Divided attention , Factors that influence our ability to pay attention ,Neuroscience and Attention: A Network Model Intelligence and Attention ; Automatic and controlled processes in attention . Consciousness The Consciousness of mental processes; Preconscious processing, Functions of Consciousness. 		
	Altered states of Consciousness: Meditation		
	Unit 5: Higher Cognitive Processes:		
	Memory, Thinking and Problem solving, Decision making and Creativity : Nature , Types and Models.		
Books for References:

Paper Code and Name	PHD102: Theoretical Foundation of Psychology (Core Paper)
	COURSE OUTCOMES
CO-1	Enables the student to know the Origins and basics of Psychology
CO-2	Enables the student keep in mind the essence of Culture and cross-cultural
	differences, while designing and reporting the Research outcomes
CO-3	The researcher will be able to use the different theraupetic approaches
CO-4	Enables the student to apply Positive Psychology in Mental and Physical Health
CO-5	The Student will know the role played by technology in health of Individual

PARTICULARS	Teaching Hours (Max.)
Unit I: Different schools in Psychology:	
Structuralism, Functionalism, Behaviorism, Gestalt and Psychoanalysis.	
Unit II: Basic Concept of Culture, Cross-cultural Psychology:	
Background, Origin, Principles, Dimension of Culture.	
Unit III: Maladaptive Behaviours of Childhood:	
Externalizing Disorders: ADHD, Conduct Disorders, and Juvenile Delinquency.	
Internalizing Disorders: Anxiety, Depression and Eating Disorders. Therapies:	
Play Therapy, Family Therapy, Cognitive-behaviour Therapy.	
Unit IV: Social Psychology of Psycho-Physical Health:	
Mental Health, The Burden of Disease due to Mental Illness, Depression; From Mental illness to Mental Health: Positive Psychology, Positive Psychology at Individual Level, Positive Psychology at the Subjective Level: Subjective Well being. Spirituality in Mental Health, Community based mental health care. Physical Health. Multiple Function of PNI. AIDS and the Lazarus Effect. Cancer, Smoking: Interventions, Unit V: Social Psychology of Technology: An Introduction to Psychology of Technology, Technology and the individual - The technologies fix, Technophobia, Techno-stress and High Tech-high touch.	
Technology and Individual Control, Technology in Education and at Work Technology and Health- Technology and telemedicine, technology and reproductive medicine and technology and Therapy. Technology and communication- Psychology of cyberspace-types of communication and organizational position. The limits of Psychology of Technology.	
Unit VI: Forensic Psychology:	
Introduction. Legal and Ethical issues. Expert as Witness, Eyewitness: Identification and testimony-wrongful conviction. Memory factors in Eyewitness accounts. Sources in memory: Predictors of Juvenile Delinquency, Restorative Justice, Women and Law Enforcement

Paper Code and Name	PHD103: Educational Psychology
	COURSE OUTCOMES
CO-1	The students will understand the principles involved in effective learning.
CO-2	The students will develop skills to apply psychological principles in teaching
	and learning situation for better outcome.
CO-3	They will become effective student counsellors to address issues related to
	career choice and learning.
CO-4	The students will understand Tests and evaluation procedures.
CO-5	The students will understand application of learning principles to the problems
	slow learners

PARTICULARS	Teaching Hours (Max.)
Unit: 1 The Educative Process	(Max.)
The meaning of education: The educative act, role of Psychology in	
education,	
Basic principles of behaviour change.	
Unit: 2 Learning and the Development of Personality	
Motivation, motives, needs and drives, identification of needs, Goal setting	
behaviour, needs of the child and educational objectives.	
Unit: 3 Cognitive Processes	
Process of concept formation, the development of critical thinking and	
associative thinking, problem solving behaviour.	
Unit 4: Personality and Self Concept	
Roles and role behaviour, Self concept, Adjustment, Socialization and	
Personality	
Unit : 5 Evaluation of Behaviour Change	
Tests and evaluation procedures, the process of test standardization,	
intelligence tests, achievement tests, measures of personality	
characteristics; using test information. Education Psychology to meet the	
special needs: Problems of slow learners, identification of slow learners-	
application of learning principles to the problems slow learners	
Reference Books :	
1) Educational Psychology – Fredrick J. McDonald	
2) The Psychology of Education – Martyn Long	
3) Advanced Educational Psychology- S.S. Chauhan	

Paper Code	PHD104: Counselling and Guidance
and Name	
	COURSE OUTCOMES
CO-1	Students will learn the skills and strategies to carry out Individual Counseling
	session
CO-2	Students will learn the skills, and strategies to execute a Group Counseling
	Session
CO-3	Students will learn the utilization of the various Counseling techniques.
CO-4	Students will learn family and marriage counseling skills.
CO-5	Students will learn to handle the Career issues of their prospective Clients who
	need Career Guidance and Counseling

PARTICULARS	Teaching Hours
	(Max.)
Unit: 1 Approaches to Counseling:	
Psychoanalytic, Person Centered, Rational Emotive, Existential, Gestalt and Transactional, Cognitive Behavioural, Therapy.	
Unit: 2 Career Counseling over the Life Span:	
Importance, Career Counseling Associations, Career Information, Career Development Theories and Counseling, Career Counseling with Diverse Population.	
Unit: 3 School and College Counseling:	
Elementary, Middle Secondary School Counseling and Guidance, Counselling for College students: Theoretical Bases and Professional Preparation for Working with College Students, Students Life Professionals	
Unit 4: Marriage and Family Counseling:	
Family Life and Family Life Cycle, Marriage/Family counseling Vs Individual and Group Counseling, Marriage and Couples Counseling with Application of Different Theories, Family Counseling with Application of Different Theories.	
Unit: 5 Mental Health, Substance Abuse, and Rehabilitation	
Counseling :	
Theories and Functions of Mental Health Counseling, Preventive and Treating Substance Abuse, Treating Alcohol and other Drug Abuse, Families and Substance Abuse Treatment, Rehabilitation Counseling.	
BOOKS FOR REFERENCE

5)	L. Alan Sruofe, Robert G. Cooper (1996). Child Development: its	
	Nature and course (3 rd ed.) McGraw Hill.	

Paper Code	PHD105: Health Psychology
and Name	
	COURSE OUTCOMES
CO-1	The students will be able to understand the significance of psychological factors
	in origin of physical illnesses.
CO-2	The students will be able to apply psychological principles of behaviour
	modification to prevent, treat and manage physical illnesses.
CO-3	The students will be able to become effective well-being officers
CO-4	The student will be able to apply principles and techniques of psychology to
	manage and enhance health in the clients
CO-5	The students will be able to help clients to deal with illness and disorders with
	suitable techniques of intervention

PARTICULARS	Teaching Hours (Max.)
1. Introduction to Health Psychology	(
Definition of Health Psychology, The mind-body relationship, Importance of	
Health Psychology, The Biopsychosocial model in Health Psychology	
2. Health Behaviour	
Meaning of Health Behaviours, role of behavioural factors in disease and	
disorder. Changing Health Behaviours-Changing Health Habits, Cognitive	
behavioural approaches to health behaviour change.	
3. Health Enhancing Behaviours-	
Metabolism and health- exercise, healthy diet, weight control, obesity, eating	
disorders, sleep. Addiction and other risky behaviours- Alcoholism;	
Substance abuse, smoking-ill effects and Interventions.	
4. Stress and Coping	
Meaning of stress, Sources of chronic stress. Coping with stress, coping	
styles, Management of Stress, Techniques of stress management.	
5. Chronic and Terminal illness	
Chronic illness- arthritis, diabetics, CVDS- causes and risk factors.	
Coping strategies and Chronic illness	
Psychological interventions and chronic illness.	
Psychological Management of terminally ill- Individual counseling,	
Family Therapy, Managemental of terminal illness in children.	

Reference Books :	
Health Psychology- Shelly E. Taylor 6 th edition.	
Health and Human Behaviour- Robert. M. Kaplan.	
Health Psychology- Biopsychosocial Interaction-Edward Sarafino 5 th edition,	
John Wiley and Sons.	

Paper Code and Name	PHD106: Research Methodology and Advanced statistics		
	COURSE OUTCOMES		
CO-1	Enable the basics of Research and different research approaches		
CO-2	Develop his own Research Designs		
CO-3	Will develop the skill of collecting sample using scientific method		
CO-4	The student will learn the essence, nuisances of different scales used for		
	Scientific study of behaviour		
CO-5	Enables to use different and relevant statistical tools for analyzing the Data		

PARTICULARS	Teaching Hours (Max.)
1) Introduction :	
Meaning and Objectives of Research, Research Approaches, Ethical Issues in research, Research Problem, Hypothesis and its Types.	
2) Research Design :	
Variables and its Types, Poor Designs and Good Designs, Characteristics of Good Designs, Different Research Designs, Basic Principles of Experimental Designs, Informal and Formal Experimental Designs.	
3) Sampling :	
Population and Sample, Characteristics of a Good Sample, Types of Sample, Sampling Error. Sample Size.	
4) Measurement in Researches :	
Measurement Scales, Sources of Error in Measurement, Technique of Developing Measurement Tools, Different Types of Scales, Reliability, Validity, Norms and their Types.	
5) Data Processing and Analysis :	
Multiple, Partial Correlation, Regression, Normal Distribution Curve, 't' Test, ANOVA, MANOVA, ANCOVA and Non-parametric Tests - Mann- Witney U. Test, Wilcoxan Sign Rank Test Chi Square Test. Factor Analysis.	
6) Report writing :	
Writing in APA style- Significance of Report Writing, Different Steps in Report Writing, Reporting the findings, Computer Application : Excel, SPSS

Paper Code	PHD107: Organizational Behaviour
and Name	
	COURSE OUTCOMES
CO-1	Researchers will be able to apply the fundamentals and key facets to maximize
	the effectiveness of Various HR Functions
CO-2	The Researcher will be able to prepare Job Analysis Questionnaire
CO-3	The Researcher will develop the various methods of Selection for the selection
	of right person for the right job
CO-4	Researcher will be develop the skill to prepare Job Profiles to enhance
	productivity and for the organizational effectiveness
CO-5	Researcher will be able to develop Performance Appraisals for the different
	Jobs in an

PARTICULARS	Teaching Hours (Max.)
1) Introduction to Organizational Behaviour :	
The Challenges facing management, The Behavioural Approach to Management, Globalization, Information technology, Total Quality, diversity and ethics.	•
2. Total quality management :	
Definition of TQM, Re-engineering, bench marking, empowerment, Putting empowerment into action, Learning organizations.	
3. Group dynamics and Team :	
The nature of groups, The dynamics of group-formation, Types of groups;	
Team in modern work place, The nature of teams, Effectiveness of team,	
How to make teams more effective, the use of cross-functional teams.	
4. Organizational Stress :	
Meaning and definition of stress, Causes of stress, the effects of stress, coping strategies for stress, Organizational Role stress.	-
5. Organizational change and Development :	
Theoretical development of OD, traditional OD techniques and emerging OD techniques.	
6. Special Applications of Organizational Development	
: OD in global settings, OD in health care, school systems, and public sectors, future directions in OD

Paper Code	PHD108: Positive Psychology
and Name	
	COURSE OUTCOMES
CO-1	Enbles the Researcher to get acquainted with Positive Psychology
CO-2	The researcher develops designs focusing on Emotions and it's Role
CO-3	The Researcher learns to develop
CO-4	Research design using Cognitive Approach
CO-5	Enables the Researcher to incorporate the role of Specific Coping Approaches
	and prosocial variables into their research designs

PARTICULARS	Teaching Hours (Max.)
1. Positive Psychology Foundations:	
Welcome to Positive Psychology, Western Perspectives on Positive	
Psychology, Eastern Perspectives on Positive Psychology, Classifications and	
Measures of Human strengths and Positive outcomes.	
2. Emotion focused approaches:	
Subjective well being, Resilience, Flow, Positive affectivity, Positive emotions,	
Self esteem, Emotional coping, Emotional intelligence and Emotional creativity.	
3. Cognitive focused approaches:	
Creativity, Personal control, Well being, Optimism, Optimistic Explanatory	
style, Hope, Self-efficacy, problem-solving appraisal, Goals, Passion to know	
and Wisdom.	
4. Specific Coping Approaches:	_
Sharing one's story writing or talking about emotional experience, Benefit	
finding and benefit reminding, Positive responses to Loss: perceiving benefits	
and growth, Meaningfulness, Humour, Spirituality.	
5. Prosocial behaviour:	_
Compassion, Forgiveness, Gratitude, Love, Empathy and Altruism.	
6. Special Populations and Settings:	
Positive Psychology at School, Aging Well, Physical disability, Multicultural	
context and at Work.

Paper Code and Name	PHD109: Psychopathology and Clinical Psychology		
	COURSE OUTCOMES		
CO-1	The students will understand the nature and scientific views about abnormal		
	behaviors.		
CO-2	The students will understand the theoretical perspectives on maladaptive		
	behaviour.		
CO-3	The students will able to conduct Cognitive-Behavioural approaches,		
	integration and extension of psychological therapies		
CO-4	The students will able to conduct different therapies.		
CO-5	The students will able o conduct research in clinical setup		

PARTICULARS	Teaching Hours
1. Abnormal behaviour	(Max.)
Nature, scientific views about abnormal behaviour problems of	
classification; causes of abnormal behaviour.	
2. Theoretical perspectives on Maladaptive Behaviour-	
The fole of theory in abnormal psychology, the biological perspective, The	
psychodynamic perspective, The Behavioural perspective, The cognitive	
perspective, The humanilisti-existential perspective, The community-cultural	
perspective, an interactional approach, our take-away message	
3. The Therapeutic Enterprise :	
Choices, Techniques, Evaluation- Psychotherapy, Cognitive-Behavioural	
approaches, integration and extension of psychological therapies, Research	
on the psychological therapies, Integration of psychological therapies,	
Integration of psychologically based therapeutic Approaches, biological	
therapies, Hospitalization, our take-away message	
4. Classification and assessment- classification :	
Categories of Maladaptive Behaviour, Assessment: The Basis of	
classification, our take-away message	
5. Therapy and mental health :	
Somatic therapy – Drugs, BCT and Surgery, Psychoanalysis, Behaviour	
therapy, Humanistic Existential therapy – other forms of psychotherapy,	
prevention of mental disorders, programs for mental health programmes.	
Meditation and Yoga as therapy.
